A Thoughtful Way to Visually Display Your Record Collection**

NEW YORK, MAY 2018 – The Dovetail Vinyl Storage Cabinet is a vinyl record storage program that utilizes a “file drawer” approach allowing the user to easily flip through an entire LP collection while creating a visual display of record cover art. The Dovetail Vinyl Storage Cabinet expands on the success of the Dovetail Record Crate incorporating many of the same details into a cabinet that can be customized across four standard widths and three standard heights with a maximum width of 63.5” and a maximum height of 40”.

- Records are stored in a forward-facing direction, similar to a record store-style bin, allowing the user to easily flip through their collection.
- A single drawer unit, can hold up to 90 records and the cabinet can be configured with a combination of up to 8 drawers below and 4 record store-style flip bins on top to house up to 1,000 records.
- Each drawer is constructed with Symbol’s exposed English dovetail joinery and utilizes heavy-duty full extension soft-close under-mount drawer slides.
- Beautiful vegetable tanned leather handles with solid brass hardware provide grip on each drawer adding both functionality and a sophisticated design detail.
- All cabinets are built with sustainably harvested North American hardwoods and are available in solid Ash (with a selection of stain or lacquer options) or in solid Natural Walnut. Cabinets start at \$1,695.

The Dovetail Audio Rack is the perfect pairing with the Dovetail Vinyl Storage Cabinet to create a seamless look across audio gear and media storage.

- The audio rack system includes a combination of fixed and adjustable shelves and features a unique vibration isolated turntable platform at the top.
- Removable wire management is incorporated into the rear of the rack to keep cables organized.
